

USTA 36' AND 60' LINE GRANTS

TENNIS IS A LIFETIME SPORT FOR ALL AGES AND LEVELS

Get more players on your courts by offering the right formats! It's easy—and we'll help. Smaller courts allow players to build confidence and learn skills and strategy while covering the entire court. They'll have more fun and keep coming back for more, which translates to tennis growth in your community!

Easily add 36' and 60' lines to tennis courts, playgrounds, blacktops, clay courts and more with assistance from the USTA!

IT'S EASY TO GET STARTED!

Complete the **USTA Facility Assistance Form** at <http://ct.usta.com/pfa> and be sure to select "36 and 60 Foot Lines" for question 4.

You will work with a USTA representative who will provide you with a concept plan, contractor specifications, and a USTA Approval Letter so you can begin your project.

Once your project is complete and required documentation approved, the USTA's National office will reimburse 50% toward the investment a facility makes to line its courts, capped at \$4,000. Additional funds may be available from the USTA's local offices. Colleges are reimbursed at 100%, capped at \$4,000.

For more information on the application process and to learn how the USTA can assist your community:
